

TTT Team Goals

Overall Project Goals:

Service Goals:

Learning Goals:

To reach the overall project goals, each team needs to set SMARTT team goals.
SMARTT goals are:

Specific – clear and simple.

Measurable – you can measure how well you have achieved your goal.

Achievable – your goal is not an “impossible dream” – it is possible to achieve it.

Related - to your overall project goal.

Time framed – you know when you need to achieve it.

Trackable – you can monitor how you are going towards reaching the goal.

Write down the name of your team and the team’s SMARTT service goals and learning goals:

Team’s SMARTT service goals:

Team’s SMARTT learning goals:
