

# TTT Choosing the Project/Theme

A number of projects or themes have been suggested - now it is time to choose. Write down the description of each project or theme being considered, think about the following questions, then vote.

**Why does this project/theme interest me?**

What do I find interesting about this project/theme?

**How will it contribute to the common good?**

TTT needs to contribute to the common good.

**How easy will it be to achieve the project goals?**

For a TTT project to be successful it must be realistic, with goals we believe we can achieve.

Project/theme Description	Why does this project or theme interest me?	How will it contribute to the common good?	Are the service goals and learning goals realistic? Why/why not?
